```c
1: #include<stdio.h>
2: int main(){
3:     int t1=0,t2=1,n,nxtterm;
4:     printf("Enter the range of element: ");
5:     scanf("%d",&n);
6:     while(t1<n){
7:         printf("%d",t1);
8:         nxtterm=t1+t2;
9:         t1=t2;
10:        t2=nxtterm;
11:     }
12: }
```
